

**FOI Request: IVF Treatment in Essex**  
**Our Reference Number: 1314413**

***Please can you provide me with all the names of the hospitals in your CCG that would provide IVF on the NHS even if your partner already has children, but you do not.***

As per the service restriction policy (please see below for each CCGs individual policy), patients would be ineligible for NHS treatment if there was a child from either partner's previous relationship. Therefore, no hospitals in Essex would provide in this case.
